CAREER OBJECTIVE

B.Tech Computer Science student (2028) with hands-on full-stack (MERN) and AI-integration project experience, seeking a Software Engineering internship/new-grad role.

PROJECTS

Placement Cell — AI Placement Assistant 2026

React | Node.js | Express.js | MongoDB | AI/LLM API

- Built a full-stack AI placement platform with a Node.js/Express/MongoDB backend, computing real-time resume ATS scores, SDE-role matching, and placement-readiness metrics.
- Integrated LLM-based resume analysis achieving **[92]%** match accuracy across **[50+]** test resumes; built a live dashboard tracking resume grade and practice streaks, cutting manual review time by **[85]%**.

Campus Eye — Campus Management Portal 2025

HTML5 | Bootstrap 5 | JavaScript | SQL

- Built a SQL-backed campus-navigation portal for 500+ users, cutting navigation time by **40%** with a modular JavaScript architecture.
- Separated data-access logic from UI, reducing code duplication by **30%** and boosting long-term maintainability.

Event Management System 2025

HTML5 | CSS3 | JavaScript | Java Servlets | Apache Tomcat

- Built a role-based platform with separate admin and student dashboards for creating, managing, and browsing campus events.
- Implemented server-side authentication with Java Servlets on Apache Tomcat (Eclipse), securing administrative routes and user data.

ACHIEVEMENTS

Full Stack Developer Intern — MPIS Revolution Pvt. Ltd., Jun–Jul 2026

Developed **Automated ATS Resume Scoring Job Matching Engine / Technical Interview Practice Lab** using **Node.js, Express, MongoDB, React, JavaScript , Gemini LLM API** as part of **Placement AI Command Center** ; delivered **7-category resume audit REST APIs, real-time SDE role-matching algorithms, dark/light theme systems** over the 6-week engagement (02 Jun – 15 Jul 2026)**resulting in 95% keyword extraction accuracy, sub-5-second analysis, and 85% time reduction** .

Hackathon 3.0 — SRMS CET, Mar 2025

Built and presented a real-time alert web app against 100+ national teams in 36 hours; received commendation from panel evaluators for design and execution.

HackerRank 5-Star Gold Badge — C Language

Earned top-tier Gold badge in HackerRank's C-language skill assessment, placing in the top percentile globally.

LeetCode · 50+ Problems Solved (Java)

Consistent DSA practice in Java covering arrays, strings, linked lists, stacks, and recursion; actively working toward the 150-problem milestone.

Google Data Analytics Professional Certificate — Coursera, Jun 2026

Completed all 8 courses covering data foundations, SQL, R, Python analysis, data cleaning, visualization, and a capstone case study. Verified badge on Credly.

SOFT SKILLS & INTERESTS

Communication | Problem Solving | Team Collaboration | Adaptability | Time Management

Leadership | Critical Thinking | Creativity | Attention to Detail | Work Ethic

EDUCATION

B.Tech — Computer Science 2024–2028

SRMS CET · AKTU · CGPA **7.83** (through 4th Sem)

Sem 1 — SGPA **8.82** • Sem 2 — SGPA **7.05**

Sem 3 — SGPA **7.72** • Sem 4 — SGPA **7.74**

Class XII · CBSE 2024

St. Francis Convent School · **79.2%**

Class X · CBSE 2022

St. Francis Convent School · **84.4%**

TECHNICAL SKILLS

Languages

Java | JavaScript | C++ | C | Python

Frontend

React.js | HTML5 | CSS3 | Bootstrap 5

Backend

Node.js | Express.js | REST APIs | JWT | Servlets

Databases

MongoDB | MySQL | SQL

Data & Analytics

Spreadsheets | Data Cleaning | Visualisation

Tools

Git | GitHub | VS Code | Eclipse

CS Core

DSA | OOP | DBMS | OS

Learning

MERN Stack | Tableau | React Hooks
